Not familiar with Sporting Clays? Just like all our meetings – come out and learn from your peers! Shooters walk or ride along a designated path from station to station in open fields and hardwood gaps. Each station uses clay targets to simulate a bird. A round consists of 50 targets spread over 10-12 shooting stations. Please be sure to indicate what gauge you will be shooting so that we can have shells available. Additional shells should be brought by shooters or they can be purchased from Wern Valley.

For more information, contact ASA-WI at 414/227-1230.
